

Product Information Sheet

| | |
|---------------------------------|------------------|
| Altera Product Code: | ESCC-91458 |
| Product Description: | ProPurge MCPC-U+ |
| Recommended Usage Level: | 50% |

ProPurge MCPC-U+ purge compound is a unique and proprietary product that has been developed as a cost-effective way to improve turnaround time and reduce scrap for injection molding machines, especially for changes in color and polymer.

ProPurge is recommended for (but not limited to) the following polymers:

- Polypropylene
- Polyethylene
- Polystyrene
- ABS

In most instances, ProPurge can also be used for the following polymers:

- Nylon
- Polycarbonate
- PET
